Projects

File sharing web application based on ranking:

(Tools: Java, Springboot, Spring Security)

This web app securely shares files without a network connection. It uses dynamic URLs, password protection, and expiration settings. Users can create local accounts to save their work within storage limits.

Sathyabama StudentHub: A cloud driven student information chatbot

(Tools: Google Cloud, Sql , HTML, css, Javascript)

This chatbot will be having login and signup option for three categories that are teacher ,student and admin.Teacher and student can query from chatbot and also mark any answer from the user as invalid and can give a suggestion for the marked answer to rectify it.The admin can login to check whatever suggestions are given and can mark those changes and help the chatbot to work more efficiently.

Professional Experience

Frontend Developer

Devcansol Pvt. Ltd.

06/2024 – 11/2024 | Chennai, India
